Lubring

LINEMAN'S HEAVY DUTY PLIERS LUBRING FEATURE

A rugged, easy running, perfectly balanced belt or pocket tool developed to handle work in the aerial, ground or underground departments of the line construction field.

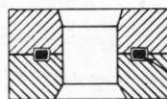

This tool can be furnished with splicing grooves.
See No. 259S. (Pat. No. 2441552)

Pat. No. 2441552

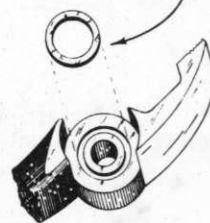

LUBRING

The LUBRING line is precision machined with a patented "lubrication ring" floating in the joint. This ring of porous iron retains a supply of oil which is released as the pliers are used, assuring a smooth-working, long-life joint action. This special feature has been tested and proved in the field. It is standard equipment for several of the top utility companies.

UTICA Adjustable ALLOY STEEL Wrench

THINNER

STRONGER

ALLOY STEEL

This UTICA thin pattern full Alloy Steel Wrench was designed **by** mechanics . . . **for** mechanics! It slips with ease into places inaccessible to an ordinary wrench, yet the movable jaw has a wide bearing on the frame for greater support and less strain.

TOOL No. 91

The jaws are thin — so thin they reach difficult spots with no trouble at all. They're strong too — drop forged like the frames from tough Alloy Steel to withstand rigorous breakage tests which most wrenches of this type could never meet!

SPECIFICATIONS OF TOOL No. 90 AND No. 91

| Size | Jaw Open | Thickness of Head Tip of Jaw | Thickness of Head Thickest Part | Packed Weight | Packed Weight |
|------|--------------------------|---------------------------------|------------------------------------|---------------|---------------|
| | Maximum not less than | Minimum | Minimum | Minimum | Doz. Lbs. |
| 4" | 1/2 | 1/8 | 5/16 | 1.8 oz. | 1 1/4 |
| 6" | 3/4 | 3/16 | 3/8 | 4.7 oz. | 3 1/2 |
| 8" | 15/16 | 15/64 | 15/32 | 8.7 oz. | 6 1/2 |
| 10" | 1-1/8 | 9/32 | 9/16 | 15.0 oz. | 11 |
| 12" | 1-5/16 | 11/32 | 11/16 | 24.7 oz. | 18 |
| 15" | 1-3/4 | 19/32 | 31/32 | 56.0 oz. | 42 |
| 18" | 2-1/16 | 23/32 | 1-3/16 | 94.7 oz. | 70 |

Thin Pattern Design

Note the thin jaws, but remember: this Adjustable Steel Wrench meets rigid strength requirements!

UTICA Adjustable CARBON STEEL Wrench

IDENTICAL IN PATTERN TO THE No. 91 WRENCH
CARBON STEEL, BLACK FINISH WITH POLISHED HEAD

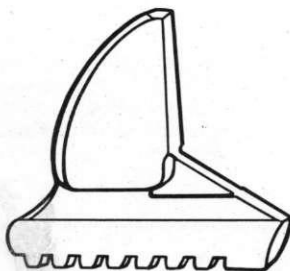

This UTICA thin pattern Wrench of Carbon Steel works handily in tight spots where ordinary wrenches will not fit . . . has plenty of support for the movable jaw on the strong frame, eliminating spring and unnecessary strain.

TOOL No. 90

Like the No. 91 Wrench, the No. 90 has thin jaws to reach into difficult places with no trouble at all. Of carbon steel, this Wrench has a black finish with a polished head.

| 12" | 1 | 2 | 2 | 2 |

W-2

"PISTOL GRIP"

Slip-Joint Combination Pliers

Easier to handle

Offset Pistol-Grip fits natural hand grip, enables you to reach hard-to-get-at places.

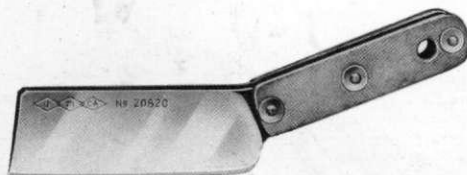

More holding power

Normal pull on handles tightens grip on the work for wire twisting or pulling.

Cuts wrist fatigue

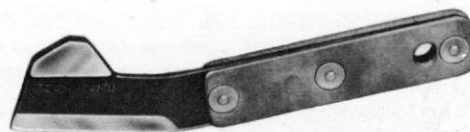

Pistol-Grip gives efficiency with less effort... prevents slipping and skinned knuckles.

UTICA Display Cases "A & B"

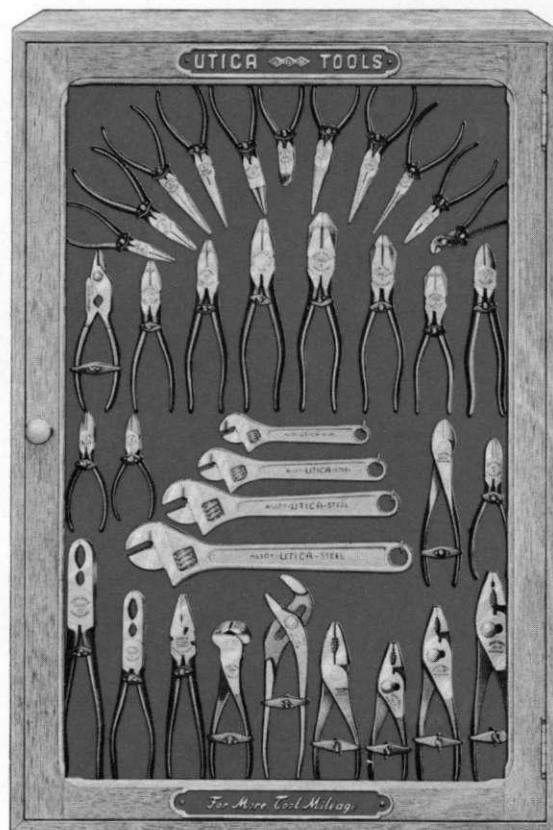

This well-designed Modern Display Case was planned by display experts to help you increase your sales and your profits on Pliers and Adjustable Wrenches — and the Utica Drop Forge & Tool Corporation makes it possible for you to obtain this attractive case for the price of the tools alone!

The Utica Display Case is made of heavy, well-seasoned oak — bleached to a light shade to enhance its beauty. All wood parts are smoothly finished and carefully waxed. The background is rich red velour-like coated material on which each tool is securely bolted. Tools are easily available by removing bolt. Replacement of tools is simplified as each tool number is clearly stenciled behind the head of the tool. List price of each tool is given on printed slip attached to inner door frame. Crystal clear glass door panel permits full view of all tools.

Each case is carefully packed in a specially designed carton to insure its safe arrival. Tools are mounted at the factory, so the case is ready to use when you get it!

No. A—UTICA DISPLAY CASE as described above.

No. B—UTICA DISPLAY CASE identical with No. A except that a No. 1932 Fence Pliers replaces the No. 1300-10" Gas and Burner Pliers—for the benefit of dealers in rural communities.

SPECIAL CASES

IN ADDITION TO THE CASES SHOWN IN THIS CATALOG, UTICA TOOLS WILL DESIGN SPECIAL PANELS OR WALL DISPLAYS TO CUSTOMER SPECIFICATIONS . . . THESE ARE ALSO SUPPLIED FOR THE COST OF THE TOOLS ONLY.

Dimensions —

33 inches high; 22 inches wide; 3 inches deep.
Shipping weight — 44 pounds.

COUNTER DISPLAY

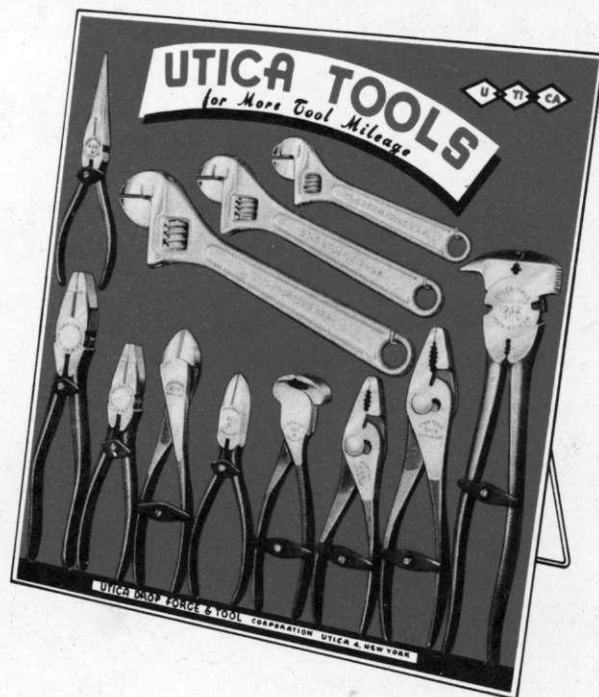

No. D-2

SIZE 16" x 16"

Here's a small display panel to help build sales for you — and it's yours for the cost of the tools only! It's pressed wood, with screws for easy removal of the mounted tools. A sticker attached to this display shows tool number and prices for self servicing!

Use it on the counter, in the window, or on the wall . . .

It has a sturdy wire easel which permits it to stand on your counter or in your window, or it may be hung on your wall. However you use it — it sells Utica Tools!

WALL DISPLAY

No. E-1

SIZE 12" x 24"

This hanging panel is also yours for the cost of the tools only! Stickers attached to the face of these displays show tool numbers and prices, making the displays self-merchandising!

ASSORTMENT ON No. D-1 and No. E-1

| Round Nose | 21-4" | Duck Bill | 86-6" |

UTICA WRENCH

Counter Display

SELL MORE UTICA WRENCHES • THIS DISPLAY WILL DO IT!

This smart looking counter display was designed by experts with one idea in mind — to sell more Utica Wrenches! The case is made of heavy fibre-board covered with a red textured paper, and has transparent plastic covers.

These "book page" covers overlap and completely enclose the wrenches at all times — self-closing by the plastic's own springiness! No need to dust the wrenches daily! Yet they're easily accessible for demonstration to the customer!

Utica Drop Forge & Tool Corporation makes it possible for you to obtain this attractive counter display for the cost of the tools only! Each case contains the following assortment of Utica Thin Adjustable Alloy Steel Wrenches:

**UTICA WRENCH
DISPLAY W-1**

| QUANTITY | TOOL No. | WEIGHT DOZ. |
|----------|----------|-------------|
| 2 | 91-4" | 1 ¼ lbs. |
| 3 | 91-6" | 3 ½ lbs. |
| 3 | 91-8" | 6 ½ lbs. |
| 2 | 91-10" | 11 lbs. |
| 2 | 91-12" | 18 lbs. |

Dimensions of Counter Display: 13 ¼" Wide, 13" Deep, 3 ¼" High.

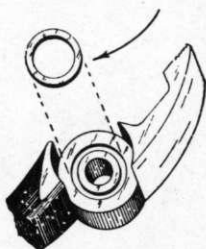

• Shipping Weight: 10 ½ lbs.

THE W-3 COUNTER DISPLAY IS AVAILABLE WITH THE No. 90 WRENCHES

UTICA *Lubring* DISPLAY

This "jewel case" for these "three diamond" Utica tools is offered to you for only the cost of the **Lubring** pliers it displays and stocks.

THE PRINCIPLE BEHIND THE LUBRING PLIERS

The LUBRING line is precision machined with a patented "lubrication ring" floating in the joint. This ring of porous iron retains a supply of oil which is released as the pliers are used, assuring a smooth-working, long-life joint action. This special feature has been tested and proved in the field. It is standard equipment for several of the top utility companies.

THE *Lubring* CASE is an attractive combination of bleached walnut and gleaming plastic, and provides a beautiful setting for these top-quality tools.

UTICA LUBRING CASE No. L1

| Quantity | Tool No. | Quantity | Tool No. |
|----------|------------|----------|-------------|
| 7 | 259-8" | 4 | 241-5" |
| 3 | 259-7" | 5 | 226P-6 1/2" |
| 4 | 241-5 1/2" | 7 | 254-6 1/2" |

Dimensions: Width, 14 3/4"; Depth, 10 1/2"; Height, 8".
Shipping Weight: 22 lbs.

SPECIAL HANDLES

The Special handles illustrated are available on almost all of the Utica Tools. They have been proven on production lines for efficiency and convenience. Additional cost is slight.

A. Heavy, black rubber vulcanized handles provide insulation. Especially recommended for the Utility field. Not adversely affected by weather. (Dielectric value not guaranteed.)

B. Red plastic handles with deep knurling for a positive but comfortable grip. Non-burning and non-explosive they will stand up under extreme temperature changes. Easily applied — "just hammer them on."

C. "Cushion Grip" dipped plastic handle gives extra comfort. Particularly effective for women operators on production lines. Standard colors are red, blue and black; others available on large lots.

D. Spring in handle keeps jaws open, ready for instant use. Spring can be provided separately or in combination with the "Cushion Grip" dipped plastic handle.
